Practical Care Products

Independent showering and living aids

www.practicalcareproducts.com

Welcome to our independent showering and living aids brochure

At Practical Care Products (PCP) we specialise in products to help people who are less able, particularly in the bathing and showering environment. Over the last 15 years, we have established a reputation for quality products supplied at reasonable prices, servicing Local Authorities, Housing Associations, Technical Officers, Architects, Builders, Occupational Therapists, Nursing & Care Homes as well as Private Clients.

Quality

PCP aims to provide a range of quality products for use in the home. Most are covered by extended warranty periods as standard. If there are questions regarding product quality, we have a no quibble guarantee policy.

Service

PCP is committed to providing a first class service. Most of our products are held in stock at our Malvern warehouse ready for immediate distribution throughout the UK & Eire.

Surveying & Design

We offer a complete Surveying Service for any Bathroom Adaptation required. A member of our experienced staff will personally visit to take measurements to produce a computer aided design. We will take into account all requirements of the user and any constraints of the building to produce the best possible solution to meet the client's needs.

If you require sales or technical assistance then please do not hesitate to contact us.

NEWEL RAILS - STEEL

Steel powder coated white.
Fit to Newel posts of staircase
with 3 fixing points.
Left & Right handed available.

Left hand illustrated.

Hinged Support Rails

Standard and heavy duty

HSRLEGPCW740x28 Wall mounted hinged support rail, 740 mm projection from wall

- Steel powder coated white
- Adjustable height folding leg
- Clip retention of hinged rail when raised for added safety.

HSRLEGPCW690x28 Wall mounted hinged support rail, 690 mm projection from wall

- Steel powder coated white
- Adjustable height folding leg
- Spring loaded locking mechanism when raised for added safety.

HSRPCW690x28 Wall mounted hinged support rail, 690 mm projection from wall

- Steel powder coated white
- Spring loaded locking mechanism when raised for added safety.

Heavy Duty Hinged Support Rails

All of our standard heavy duty hinged support rails are steel powder coated white and have a heavy duty cast aluminium wall mounting plate.

HSRLEGPCW765X28HD 765mm projection from wall

HSRPCW760X32HD 760mm projection from wall

HSRPCW765X28HD 765mm projection from wall

Additional items available with Heavy Duty rails "made to order" items:

- Detachable toilet roll holder
- Alternative colours
- Manufacture in stainless steel

Support Rails

FCP2750 Floor to Ceiling Pole

Steel, plastic ribbed for non slip surface. 35 mm diameter, 2750 mm long, with 1 fixed & 1 loose flange. Pole can be cut down on site if required.

FCPEXTENSION Floor to Ceiling Pole Extension

For use with floor to ceiling poles supplied with doors sets only, 600 mm long. (See pages 44-47).

FWP740x700 Floor to Wall Rail

Steel powder coated white

740 x 700 mm, with fixed flanges. 3 hole flange fixing.

FWP740x700PVCR Floor to Wall Pole (with ribbing)

Steel powder coated white

740 x 700 mm, with fixed flanges. 3 hole flange fixing with plastic ribbed sleeving and in stainless steel as "made to order" items.

HSRFMC Floor mounted column

To suit any heavy duty hinged rail

Wall Mounted Shower Seats

Wall Mounted Shower Seats Heavy Duty/Extra Wide

Free Standing Shower Chairs & Stools

Our shower seat range offers quality, function and great value. Seats are available unpadded or with a choice of blue or grey padding, fully height adjustable support legs and independently articulating arms to ensure your safety and comfort whilst showering.

A range of wall mounted seats of fold down design, all with retractable legs, fully height adjustable, with and without back and armrests, specifically designed for clients where extra support is required.

Where a wall mounted seat is not appropriate, we offer a range of free standing shower chairs and perching stools for your comfort.

Wall Mounted Shower Seats

Fold Down Hinged Seats with Supporting Legs

Key features

- Wide variety of seat types to suit most clients needs
- Height adjustable support legs with locking pin provides complete horizontal seat position
- Large wall mounting surface and extending support legs give excellent rigidity when installed
- Hard wearing plastic moulded seats with drainage holes for easy cleaning
- Removable moulded seats
- Aluminium frame, powder coated for strength and durability
- Corrosion resistant stainless steel fixings as standard
- All seats have a weight capacity of over 150 kgs

LS490

Depth from wall when folded 150 mm
Weight capacity 160 kgs

Fold down shower seat, wall mounted. Aluminium frame with adjustable height supporting legs, white powdered coated. Blow moulded white easy to clean seat with built in support handles.

LS463

Depth from wall when folded 90 mm
Weight capacity 190 kgs

Fold down shower seat, wall mounted. Aluminium frame with adjustable height supporting legs, white powder coated.

LP463BL

Depth from wall when folded 95 mm
Weight capacity 190 kgs

Fold down shower seat, blue seat pad, wall mounted. Aluminium frame with adjustable height supporting legs, white powder coated.

LP463GR

Depth from wall when folded 95 mm
Weight capacity 190 kgs

Fold down shower seat, pale grey seat pad, wall mounted. Aluminium frame with adjustable height supporting legs, white powder coated.

Wall Mounted Shower Seats

Fold Down Hinged Seats with Supporting Legs, Back & Arms

BS482BL

Depth from wall when folded 160 mm
Weight capacity 190 kgs

Fold down shower seat, wall mounted. Aluminium frame, white powder coated, adjustable height supporting legs, blue padded back rest and independently articulating blue padded arms rests.

BS482GR

Depth from wall when folded 160 mm
Weight capacity 190 kgs

Fold down shower seat, wall mounted. Aluminium frame, white powder coated, adjustable height supporting legs, pale grey padded back rest and independently articulating pale grey padded arms rests.

BP482BL

Depth from wall when folded 170 mm
Weight capacity 190 kgs

Fold down shower seat, blue seat pad, wall mounted. Aluminium frame, white powder coated, adjustable height supporting legs, blue padded back rest and independently articulating blue padded arms rests.

BP482GR

Depth from wall when folded 170 mm
Weight capacity 190 kgs

Fold down shower seat, pale grey seat pad, wall mounted. Aluminium frame, white powder coated, adjustable height supporting legs, pale grey padded back rest and independently articulating pale grey padded arms rests.

Adjustable height support legs

"Slimfold" Shower Seats

Key features

- Available either as a simple bench, or full seat with a backrest and arms.
- When folded the seat has a projection of only 111mm and the bench is just 55mm.
- Uses cross bracing wall supports instead of traditional floor standing legs. Prevents the risk of trapping toes or banging feet, or of excessive weight on the legs damaging the floor.
- Seat height from 417mm upwards.
- Maximum weight capacity 300kgs (47 stone).

Wall Mounted Shower Seats

Heavy duty, extra wide

BP539

Depth from wall when folded 180 mm
Weight capacity 190 kgs

Fold down padded shower seat, wall mounted. Aluminium frame with adjustable height supporting legs, independently articulating arm rests, white powder coated with light grey padded back & seat.

BP539HS

Depth from wall when folded 180 mm
Weight capacity 190 kgs

Fold down padded open fronted "Horse Shoe" shower seat, wall mounted. Aluminium frame with adjustable height supporting legs, independently articulating arm rests, white powder coated with light grey padded back & seat.

LP620GR

Depth from wall when folded 210 mm
Weight capacity 222 kgs

EXTRA WIDE

Fold down shower seat, wall mounted. Aluminium frame, with adjustable height supporting legs, back and arm rests, white powder coated seat padding available in blue.

BP620GR

Depth from wall when folded 230 mm
Weight capacity 222 kgs

EXTRA WIDE

Fold down padded shower seat, wall mounted. Aluminium frame, with adjustable height supporting legs, back and arm rests, white powder coated. Back and seat padding available in blue.

Free Standing Stools & Chairs

PSC Weight capacity 190 kgs

Portable shower chair with fixed arms. Fixed height. Heavy Duty steel frame, powder coated white. White plastic seat.

PSCLEG Weight capacity 140 kgs

Portable shower chair with fixed arms. Adjustable height supporting legs. Steel frame, powder coated white. White plastic seat.

PSC490 Weight capacity 100 kgs

Portable shower chair. Aluminium frame with adjustable height supporting legs. Blow moulded white easy to clean back rest & seat with built in support handles.

PSS490 Weight capacity 100 kgs

Portable shower stool. Aluminium frame with adjustable height supporting legs. Blow moulded white easy to clean seat with built in support handles.

PSS Weight capacity 100 kgs

Portable shower stool. Aluminium frame with adjustable height supporting legs. Blow moulded light grey easy to clean circular seat.

SHOWER SEATS

Level-Dec EasyFit

Level Grade

The Level-Dec EastFit wet room floor formers are pre-formed to give a “real” level access shower base that, when set into the floor, can either be completely covered with non-slip vinyl flooring or tiles, thus providing a step free and unrestricted shower area. An adjustable waste position gives great flexibility when mounting the Level Dec EasyFit onto a joisted floor.

Made from colour coded modular sections that click together to form a grid like structure, the Level Grade is designed to produce a consistent gradient to screeded concrete floors with ease every time.

Level-Dec EasyFit for Vinyl or Tiled Floors

A revolutionary new design to make installation easier

Key features

- No under boarding required
- Lighter, yet stronger
- Easy to cut and drill

The location of joists within timber floors no longer presents a problem as the new Level-Dec EasyFit includes a revolutionary drainage feature that allows the installer to rotate the drainage point through 360° thus avoiding the joist.

Simply place the new Level-Dec EasyFit where it will be installed and if the drainage aperture interferes with a joist, just rotate the centre section until it is clear and fit the trap.

All Level-Decs are 22mm thick at the outer rim to be the same depth as most commonly used flooring materials.

Level-Dec Size Options

LDE5 800x800mm

LDE4 900x900mm

LDE2 1000x1000mm

LDE12 1200x750mm

LDE51 1200x900mm

LDE7 1200x1200mm

LDE1 1300x800mm

LDE6 1400x900mm

LDE3 1500x800mm

LDE52 1500x1200mm

LDE14 1700x750mm

LDE8 1850x900mm

For vinyl floors, supplied with UTVG01/H vinyl floor gully with horizontal outlet as standard. Alternative options are available. See website for details.

For the floors we offer the option of a Level-Dec stainless steel waste and membrane package.

All Level Dec EasyFit trays are trimmable.

Level-Grade

The Level-Grade sizes are made up of colour coded modular sections. Each section clicks together to form a matrix structure of various sizes and shapes. The Level-Grade is available in several pre packaged sizes. The packs are supplied boxed in kit form. Additional sections can be purchased individually.

Shower Wastes for Vinyl Wetroom floors

All of the gravity wastes shown here allow top access for easy cleaning and maintenance. The options available cover all possible types of gravity installation when fitting a shower tray, wet floor former or a screeded wet floor, both vinyl & tiled finish.

UTVG01/H for vinyl flooring Depth 103mm

The UTVG01/H with horizontal outlet is standard with the Level-Dec EasyFit. Used in conjunction with the new trap which when connected to the trap-a-dapta only measures a depth of 103mm. The other benefits being the 50mm water seal and the two part installation operation.

Also available with chrome effect cover plate UTVG01/H.

UTVG01/V for vinyl flooring Depth 138mm

The trap-a-dapta is also available with a vertical bottom outlet trap that measures 138mm from top to bottom, which is often required on new build projects.

Also available with chrome effect cover plate UTVG01/V.

Pumped Waste TAD3 for vinyl flooring Depth 40mm

Also available for tiled floors:
TAD4 Depth 40mm

This waste is designed for use with Level-Decs and screeded wet floor showers where gravity drainage is a problem. It is compatible with most shower waste pumps and it has the added benefit of having a 22mm outlet as opposed to the standard 15mm. The new improved design allows more efficient drainage.

SLW1 Slimline waste for vinyl flooring Depth 83mm

Also available for tiled floors
HCDSL1

An extremely shallow trap with an overall depth of just 83 mm. This is a waterless trap with a one-way rubber membrane seal, specifically designed for use in areas where floor depth is minimal. Suitable for push-fit or solvent weld fitting, flow rate of up to 33L/min, 40mm outlet.

McAlpine TSG50WH Depth 90mm

An alternative to the UTVG01/H

This large horizontal wet floor gully can be fitted as an alternative to the UTVG01/H. Its design means that it must be fitted to a Level-Dec before locating the Dec in the floor. It is also available as a vertical outlet version TSG2WH.

McAlpine TSG50SS Depth 90 mm

This large horizontal wet floor gully has a stainless steel cover plate. It can be fitted as an alternative to the UTVG01/H. Its design means that it must be fitted to a Level-Dec before locating the Dec in the floor.

Drainage Options

UT/BC Bath Adaptor

The bath adaptor allows you to install a wetroom floor, with a bath above to meet the needs of tenants today, whilst allowing for a simple and economical conversion to a level access wetroom, to suit future requirements.

Shower Wastes for Tiled Wetroom floors

The HCDSLTL is designed for tiled floor coverings. With stylish stainless steel grate. A waterless trap with a one-way rubber membrane seal, specifically designed for use in areas where floor depth is minimal.

HCDP Tiled Floor Gully for Pumped Waste Depth 33mm

HCDH Tiled Floor Gully Horizontal Outlet Depth 103mm

HCDSLTL Tiled Floor Slimline Waste Horizontal Outlet Depth 83mm

Height adjustable stainless steel top with 50mm water seal. Suitable for floor tiles between 6mm and 26mm in depth. Vertical gully options available on request.

Also available with vertical bottom outlet trap (depth 138 mm).

Height adjustable stainless steel top. Suitable for floor tiles between 6mm and 26mm in depth. Allows water to be pumped away when used in conjunction with waste pump.

Wetroom Floor – Waterproofing

When you need to waterproof a shower or wetroom area quickly and safely we have the answer. The Tilesafe® membrane is a cold-applied, self-adhesive, waterproof membrane which consists of a thick rubberised waterproof layer, incorporating a woven glass fibre mesh on one side.

Benefits

- Quick and easy to apply
- Simple to detail in critical areas
- Ideal for suspended timber floors
- Allows for movement in substrates
- Compatible with all quality adhesives
- Cost effective solution

Tilesafe® Kits

TS1 10m² kit

- 10m² of Tilesafe® membrane
- Tilesafe® primer
- Reinforcing tape
- Jointing compound
- Putty

TS2 5m² kit

- 5m² of Tilesafe® membrane
- Tilesafe® primer
- Reinforcing tape
- Jointing compound
- Putty

Waterguard® Kits

TS3 10m² kit

- 10m² of Waterguard® membrane
- 15m jointing tape
- 1 x external corner
- 500ml BAL primer
- 4 x internal corners
- Butyl sealant
- Self adhesive

TS4 5m² kit

- 5m² of Waterguard® membrane
- 15m jointing tape
- 1 x external corner
- 500ml BAL primer
- 4 x internal corners
- Butyl sealant
- Self adhesive

Fabric Membrane

TS5 10m² kit

- 10m² of Fabric membrane
- 4 x internal corners
- 25m jointing tape
- 1 x external corner
- Adhesive not supplied

TS6 5m² kit

- 5m² of Fabric membrane
- 4 x internal corners
- 12.5m jointing tape
- 1 x external corner
- Adhesive not supplied

Shower Waste Pumps

Many buildings, particularly modern ones, have solid floors. This makes it difficult to use a gravity waste on a level or low access shower. While we would always recommend that a pumped waste is the last choice option, it is sometimes unavoidable.

PUMP Whale flow switch tray gully kit

- Low maintenance, with no filters to clean
- Flow switch for automatic operation
- Will clear up to 14 Litres per minute from a shower

- Top & bottom suction compatible
- Shallow shower trap supplied as standard for use with Blackdown trays
- Compatible with wet floor gully
- Low voltage variable speed transformer

PUMPMIRA Whale direct wired tray gully kit

- Pump is wired directly into shower unit for instant operation
- No flow switch – easier & cheaper to fit

- Low maintenance, with no filters to clean
- Will clear up to 14 Litres per minute from a shower
- Shallow shower trap supplied as standard
- Top & bottom suction compatible
- Compatible with wet floor gully
- Low voltage variable speed transformer

PUMP INSTANT MATCH Whale direct wired self regulating kit

- Pump is wired directly into shower unit, no flow sensor, for instant operation, making it easier and cheaper to fit

- Multi speed low voltage transformer which varies the operating speed of the motor to avoid any sucking of air
- Low maintenance, with no filters to clean
- Will clear up to 14 Litres per min from a shower
- Shallow shower trap supplied as standard
- Top & bottom suction compatible
- Compatible with wet floor gully

PUMP INSTANT MATCH SENSOR Whale flow sensor self regulating kit

- Low noise shower waste pump compatible with all standard electric showers
- Electronic flow sensor detects flow rate to shower unit, fitted to cold water feed pipe

- Multi speed low voltage transformer which varies the operating speed of the motor to avoid any sucking of air
- Low maintenance, with no filters to clean
- Will clear up to 14 Litres per min from a shower
- Shallow shower trap supplied as standard
- Top & bottom suction compatible
- Compatible with wet floor gully

Dry Deck 20 Shower Waste Pump

- The flow rate of the Dry-Dec 20 system automatically adjusts to changes in shower flow rate
- Almost silent when running
- No filters in waste system - no cleaning required
- Valves integral to the pump prevent odours escaping from the drainage pipe
- Maximum flow rate 20 ltr/min
- 5 year warranty

Slimline Range

Blackdown Range

Mantis Range

Mendip Range

Radiate Range

A stylish Slimline tray offering low-level access at only 35mm high. These trays can be recessed into the floor or fitted with a sloping ramp around the entire perimeter for easier access, which is ideal for wheelchair access.

The Blackdown shower Tray is both versatile and durable. 35mm high and self supporting, it can be set virtually level access in the floor or ramped. There are 10 size options and it is compatible with our doors and pumps.

The Mantis shower tray is the lowest tray on the market at only 24 mm. The tray is strong and self supporting with a new slip resistant surface.

The Mendip shower tray, often referred to as the “above ground waste tray” is 90mm high and is ideal for situations where the floor cannot be breached and the waste cannot be pumped. There are 7 size options available.

The Radiate shower tray is an above floor pumped waste option. 40mm high, for unbreachable floors, all pipework sits between tray and floor. Fully self supporting. 14 size options available.

Blackdown Range

A versatile and durable shower tray

Key features

- Only 35mm high
- Can be set into floor for level access
- Self supporting
- Not-handed
- Separate tiling strip (included)
- Trap should avoid joists
- Solos trap 50mm water seal (included)
- Optional ramps
- Optional service ducting
- Waste pump compatible
- Suits standard & Rise Slider doors
- Suits carer screens

SOLOS DALLMER supplied with all trays

Has a 40mm outlet with a flexible ball joint to make connecting the waste easier. The trap also has a 50mm water seal making it compliant with building regulations. Top access for easy cleaning.

Cut-to-length to suit your space

There are four sizes that can be cut to length to fit between two walls and finished off with a separate tiling return.

Blackdown Range Size Options

1200 x 900mm*

1250 x 710mm

1250 x 830mm

1500 x 710mm

1500 x 830mm

1700 x 750mm*

1700 x 850mm*

1850 x 710mm

1850 x 830mm

* 1200 x 900, 1700 x 750 & 1700 x 850 are supplied with a 90 mm large waste trap (IMOR/H)

Ramp Kit

The Ramp Kit is used in conjunction with the Blackdown shower trays for wheeled chair access. The kit is modular and creates either a corner ramp or a straight ramp. The size of the ramp is determined by the size of the tray and is cut to size on site.

1300 x 750mm

1500 x 750mm

1700 x 750mm

SHOWER TRAYS

Service Ducting

Used to hide pipework, sink wastes etc behind panels constructed of heavy duty GRP instead of chasing out floors and walls. The ducting is available in two lengths for use with the Blackdown shower tray range.

These lengths can be cut to size on site. The top edge is a tiling lip and the bottom flange is screwed down with self tapping screws and then siliconed to the tray.

Infil Posts

Used in conjunction with screen sets & Service Ducting, the infil post is located on top of the Service Ducting and fills the space created by the ducting above the height of the ducting itself.

Suits Blackdown, Radiate (made to order), Mendip, Level-Dec & Wet Floor showers

OPTION 7 Left or Right handed

One half height fixed panel 400 mm wide on long side, two floor to ceiling poles, with one set of sliding doors hinged from floor to ceiling pole and one half height fixed panel on short side between wall and second floor to ceiling pole. L-shaped curtain rail and full length curtain.
[Suitable for Corner installation](#)

Suits Blackdown, Radiate, (made to order), Mendip, Level-Dec & Wet Floor showers

Air Assisted doors available on options 1 to 7

Air Assisted “Freedom Doors”

Shower doors that you can open and close at a touch

The rubber seal on the base of a conventional shower door can prevent smooth opening and closing, unless the door is manually lifted clear of the floor and this can be difficult for some users, especially those in a wheelchair.

The unique Freedom air assisted hinge is operated by a small lever that lifts the door clear of the floor, enabling it to be opened and closed at a touch. Once closed, a gentle push down secures the door in place and provides the most watertight seal.

The doors can also be secured when open to ensure that they cannot swing back whilst someone is entering the shower area.

SHOWER DOORS & SCREENS

Air Assisted “Freedom Doors” available on

Hinged Doors	D	E	G	H	J	M	
Sliding Doors	1	2	3	4	5	6	7

Water seals on conventional shower doors can make it difficult to open if they are not lifted clear of the floor.

The rubber floor seals also have a unique profile and end insert to ensure the most watertight seal possible.

With the Freedom door you simply press a lever to raise the door off the floor.

A quick press on the hand grip returns the door to the floor and secures it in position.

The heart of the Freedom door is the spring mechanism, which is identical to those used successfully for many years as a support for the tailgate in hatchback cars - the utmost proof of its long lasting durability. It is completely maintenance free and covered by a lifetime guarantee.

The spring mechanism used has been tested for over 40,000 operations without failure.

Acrylic Seal

Chrome Seal

If the glass screen is to be fitted on a vinyl floor, you will require a chrome finish wall bracket to allow for the covered edging.

These glass screens can be simply silicone sealed direct to the floor, but for the neatest possible finish we also offer two alternative options - a discrete acrylic seal, or a stylish polished chrome trim.

Each type of seal is supplied as a 1200 mm length which can be cut to required length at installation.

Fully opaque etched satin glass or etched modesty panels are available as an optional extra. Please specify when ordering.

Impress Cubicle

Snowdon Cubicle

Snowdon Shower Toilet Cubicle

Where a full bathroom adaptation is not appropriate the Impress Shower Cubicle offers an easy solution. The 2 sided enclosure allows maximum entry into the shower area, yet is fully enclosed when the doors and full length curtain are used.

The Snowdon Shower Cubicle is a 3 sided enclosure designed to fit into enclosed spaces which may not allow side entry.

When major adaptation work to an existing bathroom is not possible the Snowdon Shower Toilet Cubicle offers a cost effective solution. Perfect for temporary or ground floor applications, this offers an entire bathroom package allowing those with limited mobility independence at home.

Impress Cubicle

SHOWER CUBICLES

Our cubicles have been designed with maximum access in mind, so we have created a cubicle that is open on two sides, yet the shower area can be fully enclosed using the doors & full length shower curtain provided.

They are suitable for wheelchair access or for those who have limited mobility. Although the cubicle only has two fixed sides it is still very sturdy and because the wall panels are solid it is also very robust. The cubicles come with either Option H or J doors depending on your needs.

What's included

- Blackdown, Slimline and Mendip shower tray
- Shower waste trap
- Two TRESPA panels
- Half height shower doors
- Corner curtain rail
- CIBA anti-bacterial curtain
- Grab rail

Optional extras

- Glazed roof panel
- Extractor fan/light
- Access ramp see page 33, 34 & 37

Electric shower not included

Installation instructions available on our website.

SHOWER CUBICLES

Snowdon Cubicle

SHOWER CUBICLES

The Snowdon cubicles have been designed to fit into enclosed spaces which may not be suitable for side opening doors as found in the Impress range. For this reason the cubicles have fixed panels on 3 sides and the doors open to the front.

Again, solid panels and a tough construction ensure that the cubicle is robust and will give trouble free service. The cubicles come with Option K doors and a full length shower curtain.

Note: The Snowdon cubicles are also available with the option of a half glazed side panel, which allows more light into the shower area.

What's included

- Blackdown, Slimline and Mendip shower tray
- Shower waste trap
- Three TRESPA panels
- Half height shower doors
- CIBA anti-bacterial curtain
- Grab rail

Optional extras

- Glazed roof panel
- Extractor fan/light
- Access ramp see pages 33, 34 & 37

SHOWER CUBICLES

Snowdon Shower Toilet Cubicle

SHOWER CUBICLES

A complete solution for those who are limited for space, the Snowdon Shower Toilet cubicles offer an entire bathroom package in an area as small as 1550mm x 710mm!

The cubicles include a wall hung WC, wash hand basin and grab support rail for all your bathroom needs, and when combined with a shower unit the cubicle becomes a complete bathroom that can be installed anywhere in the home. It is perfect for those who have limited mobility but want to remain living in their own homes without the fuss or cost of expensive permanent adaptations.

What's included

- Blackdown, Slimline and Mendip shower tray
- Three TRESPA panels
- Option K doors
- Wall hung WC and supporting framework
- Concealed cistern
- Wash hand basin and lever taps
- Inspection panel to access cistern (350mm wide)
- CIBA anti-bacterial curtain
- Grab rail
- Height excluding tray 1850mm

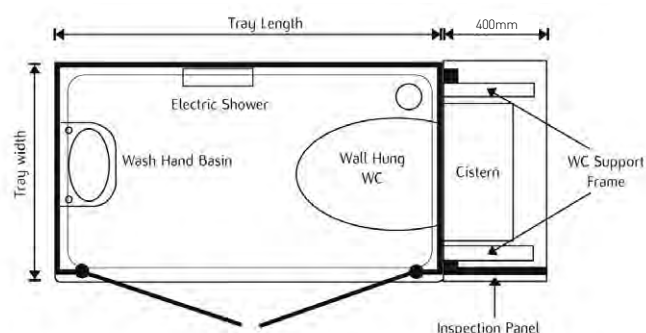

Optional extras

- Glazed roof panel
- Extractor fan/light
- Access ramp see pages 33, 34 & 37

Electric shower not included

In order to securely fix a WC to the wall of the cubicle it is necessary to have a toilet support frame and cistern mounted on the outside of the cubicle that adds approximately 400mm to the overall length of the cubicle. The frame and cistern are enclosed with an inspection panel to maintain a less intrusive look.

SHOWER CUBICLES

Shower Units

Thermostatically controlled shower range

Mira Advance ATL Flex 9kW

Thermostatic Electric Shower with flex lever, standard control & flex fittings.

- Controlled shutdown flushes water from the shower to minimise any unexpected temperature change if quickly re-started
- Safe showering with precise thermostatic control maintains water temperature to within +/- 1°C
- Large colour contrasting lever for easy grip & operation
- Raised push button controls for ease of use
- ATL - Adjustable temperature Limit for added safety
- Smooth glide bar with easy glide operation, wall or corner mounted
- 2 year guarantee

Mira Advance ATL Flex Extra 9kW

Thermostatic Electric Shower with flex lever, standard control & flex fittings.

- Manufactured to work with Whale Instant Match waste water pump without the need to fit a flow switch.
- Automatic pump operation maintained by direct wire feed from pump transformer directly into shower unit.
- Controlled shutdown flushes water from the shower to minimise any unexpected temperature change if quickly re-started
- Safe showering with precise thermostatic control maintains water temperature to within +/- 1°C
- Large colour contrasting lever for easy grip & operation
- Raised push button controls for ease of use
- ATL - Adjustable temperature Limit for added safety
- Smooth glide bar with easy glide operation, wall or corner mounted
- 2 year guarantee

Shower Units

Mira Advance ATL Flex Extra Wireless 9kW

Mira Advance ATL Flex Extra Wireless 9kW for Wireless connection between shower & pump

Operates with the Instant Match Wireless pump. The transformer includes patented Active Link diagnostics:

- Test button power indication
- Flashing Active Link signal showing wireless communication between shower unit and pump.
- Controlled shutdown flushes water from the shower to minimise any unexpected temperature change if quickly re-started
- Safe showering with precise thermostatic control maintains water temperature to within +/- 1°C
- Large colour contrasting lever for easy grip & operation
- Raised push button controls for ease of use
- ATL - Adjustable temperature Limit for added safety
- Smooth glide bar with easy glide operation, wall or corner mounted
- 2 year guarantee

Mira Advance ATL Flex Low Pressure 9kW

Thermostatic Electric Shower for use when water pressure is low

- Pumped electric shower - the ideal choice sites with low water pressure - min 0.008 bar
- Separate flow and temperature controls with push button start/stop and audible beeps
- Thermostatic temperature control for added safety
- Four spray pattern showerhead with rub clean rubber nozzles for easy cleaning
- Extended riser rail (1m) with easy one-handed adjustment of the height of the shower head, plus additional parking socket
- Best in class limescale resistance
- Guaranteed for 2 years, with optional 3 year extended warranty

Shower Units

Triton Safeguard Plus 8.5kW also available in 9.5kW version

**BEAB
CARE**

Thermostatic electric shower with extended riser rail & 2 metre hose.

- Phased shutdown flushes water from the shower to minimise any unexpected temperature change if quickly re-started
- Safe showering with thermostatic control
- Large colour contrasting lever for easy grip & operation
- Large colour contrasting push button Start/Stop for ease of use
- Adjustable maximum temperature limit set between 38°C & 47°C for added safety
- "Power On" indicator
- "Low pressure" indicator operates when operating water pressure is too low
- Audible feature alert when shower is started and stopped
- Second fixed handset holder for extra convenience
- 2 Year Guarantee
- Also available with hardwired remote control Stop / Start button

Triton Safeguard Pumped 8.5kW

**BEAB
CARE**

Where water pressure is low or unreliable, choose the tank-fed Safeguard Pumped Care for installation on a cold water cistern gravity system.

Triton Safeguard Plus Grab also available in 9.5kW version

All the flexibility of the Safeguard Plus shower but with the added feature of a heavy duty riser rail that also acts as a grab rail.

Remote control (optional extra).

**BEAB
CARE**

Shower Units

Redring Selectronic Premier Plus 8.5 kW
also available in 9.5kW & 10.5kW versions

Thermostatic electric
shower with extended
riser rail and hose

- Thermostatic temperature control for safe showering
- 1 metre chrome riser rail with adjustable hand-set holder and soap dish
- 2 metre chrome shower hose
- "Lock Mode" with three optional settings ensures water temperature remains within safe range
- Audible feedback response to Push-Button operation
- Large one touch, easy to press button operation
- Large LED temperature readout display
- Phased shutdown - reducing scale and ensuring cool-start for next user
- Automatic shutdown after 30 minutes of inactivity
- RNIB endorsed
- 3 year guarantee

**Redring Selectronic
Premier Plus Remote**

Offers all the features
of the Selectronic
Premier Plus, but with
the following additions;

- A wireless remote on/off control
- Battery operated to within 10 metres
- Retro fixable to an existing Selectronic Premier unit in the future

Shower Units

Mira Coda Pro

Thermostatic mixer shower with riser rail and fixings

- Exposed valve with bar valve fixing kit
- Thermostatic temperature control for safe showering
- Maximum temperature stop for added safety – option to override this if hotter shower preferred
- Separate temperature and flow controls
- Three spray showerhead with rub-clean rubber nozzle for easy cleaning
- Clean chrome finish
- 5 year guarantee

Mira Miniduo (EV & BIV)

Thermostatic mixer shower with riser rail and fixings

- Available as an exposed (EV) or built in (BIV) valve with adjustable fittings
- Mini size, maximum performance
- Thermostatic temperature control for safe showering
- Separate temperature and flow controls
- Can be fitted to falling, rising or rear water supply
- Four spray showerhead with partial rub-clean rubber nozzle for easy cleaning
- Clean chrome finish
- TMV2 approved
- 5 year guarantee

BIV

Mira Select Flex

Thermostatic mixer shower with extended hose, riser rail and fixings

- Exposed valve with adjustable fittings
- Thermostatic temperature control for safe showering
- Separate temperature and flow controls
- 'Cool touch' technology prevents valve becoming hot whilst in use
- Maximum temperature stop for added safety
- Smooth glide bar with easy glide operation, wall or corner mounted
- 2m hose and 1m slide bar for added flexibility
- Extra separate showerhead holder for more convenience
- Clean chrome finish
- TMV2 and TMV3 approved
- 5 year guarantee

Mira Excel (EV & BIV)

Thermostatic mixer shower with riser rail and fixings

- Available as an exposed (EV) or built in (BIV) valve with adjustable fittings
- Thermostatic temperature control for safe showering
- Maximum temperature stop for added safety – option to override this if hotter shower preferred
- Separate temperature and flow controls
- Ceramic flow control keeps lime scale at bay
- Excellent performance on any water system, even low pressure
- Four spray showerhead with rub-clean rubber nozzle for easy cleaning
- Clean chrome finish
- 5 year guarantee

BIV

Shower Units

Triton Elina TMV3 Concentric (EV & BIV)

Thermostatic mixer shower

- Available as an exposed (EV) or built in (BIV) valve
- Thermostatic temperature control for safe showering
- Factory set maximum temperature at 38°C
- Separate flow and temperature controls
- Tamper proof lever controls
- Automatic shutdown if hot or cold water supplies fail
- Flow limiters supplied, 12 L/Min flow rate
- Clean chrome finish
- TMV3 approved
- 3 year guarantee

Triton Elina Bar

- Thermostatic temperature control for safe showering
- Factory set maximum temperature at 38°C
- Separate flow and temperature controls
- Tamper proof lever controls
- Automatic shutdown if hot or cold water supplies fail
- Flow limiters supplied, 12 L/Min flow rate
- Clean chrome finish
- TMV3 approved
- 3 year guarantee

Triton Shower Head holder

Separate shower head holder can be supplied for mounting on wall below a standard height shower. This enables a seated user to have easy access to the shower without assistance.

Mira Special Needs Fittings Kit

- Suitable for any shower
- 940mm long riser rail
- Rubberised push button clamp bracket allows easy height adjustment even when wet
- Gel hook/hose tidy
- 2m reinforced chrome/plastic hose
- Includes wall fixings
- White/chrome

Triton Extended Care Fittings Kit

- Suitable for any shower
- 940 mm riser rail
- Clamp bracket allows easy height adjustment
- Includes 7000 series showerhead
- 2m reinforced hose, chrome
- Includes wall fixings
- Hose tidy and soap dish
- Chrome/grey or chrome/white

Shower Curtains

All our shower curtains are specifically manufactured to suit a level or easy access shower when the user may have particular needs.

- Textile material which is breathable thereby reducing any potential suffocation risk.
- Material is treated with an anti-bacterial agent during manufacture.
- Machine washable if necessary.
- Weighted hem to help water retention and reduce curtain suction.
- Standard colour is white.

SC2400 X 1800	2400 Drop x 1800 Wide

CAPTIVE CURTAIN SYSTEM

If you want to secure your curtain to the wall while the shower is being used, we suggest that you try our Captive Curtain System. The curtain is held in place by a wall mounted roller mechanism. It is particularly useful stopping splashing around the side of the curtain during showering if there is curtain suction.

Curtain Rails

All shower curtain rails are manufactured in Aluminium which is then powder coated white. The Aluminium is extruded to a heavy duty design which will resist accidental bending. All rails are supplied with a standard fixing pack (wall brackets & fixings, curtain glides and a track gasket).

Showering & Changing Tables

Nivano Multi-Purpose Height Adjustable Changing Tables For use in showering areas and wet rooms

- Weight capacity 200kg - electric CTE
- Weight capacity 135kg - battery CTB
- Bed sizes up to 1900x700mm
- Part stainless steel construction
- Suitable for use in wet areas
- Protrudes just 220mm from wall when stowed
- Special sizes available to order

Our easy-to-operate multi-purpose height adjustable shower and changing tables come in standard lengths from 1200 to 1900mm, with a weight capacity of 200kg (electric) and 135kg (battery). Non-standard sizes are also available.

The Nivano changing table has a travel range of 700mm and can easily lift a client up from near floor level to a convenient height for washing and changing. It folds away very neatly when not in use, protruding just 220mm from the wall and features battery back-up for safe Nivano Height-adjustable Shower and Changing Tables lowering in the event of a power failure.

The unit is wall-fixed and normally also floor-standing. However, it can be fixed higher on the wall if desired, so if you want you can even have it over a bath! And we continue to offer the exceptional range of options, including head rests and padded tops – available on our CT range of changing tables. As with all our products, the Nivano table can be tailored just for you.

CTE120 1200 long x 700 wide

CTE150 1500 long x 700 wide

CTE170 1700 long x 700 wide

CTE190 1900 long x 700 wide

GCTE120 - 190 Fold out guard

G.PROTEC Padded Guard bumper

SPLASHLONG Anti-splash skirt - 1m depth

MATTRESS Removable mattress

Also available with a tilting head/back rest.

Wall and Bath Mounted Neatfold Stretcher

Wall Mounted Neatfold Stretcher

Provides a simple space saving and economical solution to changing and showering requirements in a restricted area.

WN120	Wall mounted stretcher with support legs 1200 long x 660 wide
WN150	1500 long x 660 wide
WN170	1700 long x 660 wide
WN180	1800 long x 660 wide
WN190	1900 long x 660 wide
GWM 120 - 190	Fold out guard

- Weight capacity of 130 kgs
- Painted stainless steel frame
- 1200 to 1900 mm long with special sizes available

Bath Mounted Neatfold Stretcher

All sizes manufactured in a robust white powder coated stainless steel frame with a weight capacity of 130 kgs. Neat and unobtrusive when stored, it can be deployed quickly & easily using just one hand. Comes with options including Fold Out Guard, Guard Bumper & Splash Curtain. Also available as a bespoke manufactured fold down stretcher onto a fixed height bath.

NEATFOLD146	Integrated bath stretcher 1460 mm long
NEATFOLD166	Integrated bath stretcher 1660 mm long
NEATFOLD169	Integrated bath stretcher 1690 mm long*
NEATFOLD189	Integrated bath stretcher 1890 mm long*
BATHGUARD	Removable guard for bath stretcher
G.PROTEC.BATH	Guard bumper for bath stretcher

*These stretchers can only be used with the LTT1 low level mixer taps

Manual Height Adjustable Changing Tables

All sizes are manufactured in a robust white powder coated stainless steel frame with a weight capacity of 112 kgs. These carer tables can be set to the height that suits each individual carer. Before the patient is hoisted onto the table bed, the carer sets the height to suit them, thereby reducing the risk of back strain. Once on the table bed, the patented mechanism makes sure that the carer cannot accidentally try to move the bed while loaded. When not in use, the CTM folds away to just 180 mm from the wall. Available with Fold out Guard, Guard Bumper, Splash Curtain etc

CTM120	Manual height adjustable lift & lock changing table 1200 x 700
CTM150	Manual height adjustable lift & lock changing table 1500 x 700
CTM170	Manual height adjustable lift & lock changing table 1700 x 700
CTM190	Manual height adjustable lift & lock changing table 1900 x 700

- UK manufactured, this is the latest and largest design of electrically operated Rise & fall baths for adults & children.
- With a Double Thermo insulated construction, it has a maximum weight capacity of 300 kgs.
- Now it is also available to purchase as a fixed height bath with two optional height settings
- Height adjustable from 680 – 1080mm.
- The Avero bath is 2100mm long x 800mm wide and designed to be free standing.
- Options for installation:
 - Over bath Neatfold stretcher
 - Warm Air Spa system
 - Blue Tooth Music system
 - LED Lights
 - Internal body & leg supports
 - Foot Board
 - Grab handles
 - 3 Stage back rest

Clos-o-Mat Palma Vita

A versatile and durable shower toilet

The Clos-o-Mat Palma Vita automatic shower toilet allows less able people an increased level of privacy, independence and freedom. This toilet provides flushing, washing and warm air drying in one simple operation.

It is user friendly and an ideal choice for someone who has restricted use of their hands; one press of the flush pad by hand, elbow or body pressure triggers the operation cycle. Reduced hand contact provides improved hygiene for all users and this toilet can be used as a standard toilet at all times.

Key features

- Simultaneous flushing and washing (a unique feature)
- Improved personal hygiene – cleaning with water not paper
- Can be used at all times as a conventional WC
- Combines functions of a WC and bidet with addition of drying air
- UK made in a dedicated plant
- Clos-o-Mat's unique one-touch system allows the user to benefit from the toilet's automatic functions by just pressing and releasing the elbow pad
- Simple 'hands free' action automatic flushing, warm water washing and warm air drying
- User-friendly system guarantees the most hygienic toilet performance
- Customised to suit individual needs
- Installation and service support available
- Almost 40,000 shower toilets installed in the UK
- Complies with current electrical regulations
- Maximum load 190 Kg

HOW IT WORKS

Flushing

Press either elbow pad whilst standing for conventional flushing.

Washing

Press elbow pad whilst seated and hold down for approximately 10-15 seconds, flushing and warm water washing will then take place. Wash time is adjustable to clients needs.

Drying

Warm air drying automatically follows when the elbow pad is released.

Clos-o-Mat Palma Vita

OPTIONAL EXTRAS

There is a range of accessories available, including toilet plinths (1), lateral body supports (2), alternative douche arms (3), soft seats (4), integrated fold-down support arms (5) and a touch sensitive hand/foot switch (6). For more information please contact us on 01886 830119.

- Automatic flush
Convenient remote flushing
- Seat height adjustable
A built-in plinth allows for seat height adjustments from 405mm – 525mm at installation
- Soft seat option available
- Seat with lid option available
- Warranty
2 years as standard. Extended warranty is available on request

Remote for personalised settings

Hands-free remote settings

Personalised comfort

With the remote control, you can tailor the settings of the AquaClean 8000 Care to specific needs and then save them under three separate profiles – so anybody who uses the shower toilet can enjoy the optimum experience based on their preferences and once saved the settings can be picked up by the infra-red or control panel, ensuring fuss-free individual adjustment when required. The unit also includes a button for remote flushing.

Geberit AquaClean 8000 Care

Total control at your fingertips

A simple touch to the easily located push-button control panel is enough to start the automatic preset sequence of washing and drying. No additional effort is required – perfect for people who might otherwise experience difficulty in the bathroom.

Touch-free operation

With the infra-red remote, using the AquaClean 8000 Care can be completely hands-free. A sensor simply detects movement and automatically starts the washing and drying sequence. All functions will only operate when a user is present. It will even flush the WC before the wash cycle – easy, private and convenient.

OSCILLATING AND PULSATING SHOWER

The shower arm extends from its protected position and a gentle, oscillating and pulsating spray of fresh, warm water washes thoroughly, before gradually cooling for a refreshing feeling. The temperature can be adjusted as required for a uniquely pleasant and hygienic experience, even for the most sensitive skin. The arm also features a separate Lady Shower for the ultimate in gentle cleansing.

THE DRYER

Once washing is complete, the AquaClean 8000 Care gently and quietly dries with a flow of pleasantly warm air. Drying is completed in minutes – leaving you feeling fresh, clean and confident. Irritating and inconvenient toilet tissue can be a thing of the past.

THE CLEANING SYSTEM

Once finished, the retracted shower nozzle is soaked and rinsed with fresh water and disinfectant before and after each use to ensure spotless cleanliness at all times.

Includes: floor standing WC ceramic with ceramicplus®, plastic casing, remote control, infra-red remote, fastening material and connection parts, waste fitting, isolation valve 1/2" BSP.

Features: warm water shower, dryer, air purification, Lady shower, seat height adjustable at installation, dual flush, remote flushing, adjustable shower and dryer arm settings.

Raised Height Toilets

WCRPCC/CIST/L Raised height - Close Coupled

Raised height low level WC pan – 455mm (approximately 485mm when toilet seat fitted).

WHBCARE65 Concave Care Basin

	Code
Concave Basin	WHBCARE65
Fixed Bracket (white)	WHBCAREFIXWH
Fixed Bracket (chrome)	WHBCAREFIXCHR
Pneumatic Tilt Bracket	WHBCARETILT

The Concave care basin has been designed for the home rather than the commercial bathroom. Contemporary in style and manufactured in Europe, this basin can be installed at a fixed height or with the optional pneumatic system which allows the user to tilt the basin to their comfort needs.

The concave care basin has a single tap hole. Optional extras include; Mono bloc tap, Click Clack waste, Bottle trap and Flexible waste pipe (for use with the pneumatic tilting mechanism). See page 86 for details.

WHBCON60SP Concave Basin

	Code
Concave basin semi pedestal	WHBCON60SP
Concave basin full pedestal	WHBCON60FP

Fixed height concave wash hand basin. Monoblock tap hole with semi pedestal as standard. Also available with a full pedestal if required. Waste, plug & chain supplied, taps are extra.

Taps and Waste for wash hand basins

We offer a range of taps to compliment the wash hand basins

WHBLT Value lever 1/2" basin taps

Value lever 1/2" basin taps, chrome finish. Tap bodies are of all brass construction. 1/4 turn 1/2" ceramic disc valve. Supplied with 3" metal levers.

WHBLQT Quality lever 1/2" basin taps

Quality lever 1/2" basin taps, contemporary style, chrome finish. Tap bodies are of all brass construction. 1/4 turn 1/2" ceramic disc valve.

Static Commodes

STATIC COMMODE 1

- Plastic coated steel frame
- Padded seat and backrest
- Removable round plastic bowl with lid
- Stackable
- Max. user wt. 133 kgs

STATIC COMMODE 2

- Powder coated dark blue frame
- Detachable arms
- Adjustable height
- Clip on toilet seat for easy cleaning
- Light blue padding to seat and backrest
- Removable round plastic bowl with lid and handle
- Stackable
- Max. user wt. 125 kgs

STATIC COMMODE 3

- Plastic coated steel frame
- Adjustable height
- Padded seat and backrest
- Removable round plastic bowl with lid.
- Stackable
- Max. user wt. 133 kgs

STATIC COMMODE 4

- Chromium plated steel frame
- Drop down detachable arm rests
- Moulded polypropylene seat
- Plastic bowl
- Flame retardant upholstered over seat and backrest
- Max user wt. 155 kgs

STATIC COMMODE 4AD

As per Static Commode 4 but with adjustable height legs.

- Max user wt. 155 kgs

Mobile Commodes

COMMODE 1

- Chrome plated steel frame
- Detachable arms
- 4 swivel brake castors
- Padded blow moulded seat
- Removable back
- Removable bowl with lid
- Can be wheeled over a standard toilet
- Max user wt. 125 kgs

COMMODE 1 + FOOTREST

- Chrome plated steel frame
- Detachable arms
- 4 swivel brake castors
- Padded blow moulded seat
- Removable back
- Removable bowl with lid
- Can be wheeled over a standard toilet
- Hook on footrests
- Max user wt. 125 kgs

COMMODE 2

- White plastic coated steel frame
- Detachable easy clean seat
- Detachable back & armrests
- Removable square plastic bowl
- 4 brake casters
- Padded seat, backrest and arms
- Toilet roll holder
- Can be wheeled over a standard toilet
- Maximum user weight: 160kgs

COMMODE 2 + FOOTREST

- White plastic coated steel frame
- Detachable easy clean seat
- Detachable back & armrests
- Removable square plastic bowl
- 4 brake casters
- Padded seat, backrest and arms
- Toilet roll holder
- Can be wheeled over a standard toilet
- Footrest
- Maximum user weight: 160kgs

COMMODE 3

- Chromium plated steel frame
- 4 brake castors
- Drop down arm rests
- Moulded polypropylene seat
- Plastic bowl with lid
- Flame retardant upholstered over seat and backrest
- Max user wt. 155 kgs

PUSH ON FOOTRESTS AVAILABLE

COMMODE 3AD

As per Commode 3 but with adjustable height legs.
• Max user wt. 125 kgs

PUSH ON FOOTRESTS AVAILABLE

Toilet Plinths

Used to raise the height of toilet pans for users with limited mobility. Versatile designs will suite most standard toilet pans enabling quick and easy installation without the need to buy a special unit.

Terms & Conditions

1. Risk

- 1.1 The goods are at your risk from the time of delivery
- 1.2 Delivery takes place either; 1.2.1 at our premises (if you are collecting); or 1.2.2 at your premises or address specified by you (if we are arranging carriage)
- 1.3 You must inspect the goods on delivery. If any goods are damaged (or not delivered) you must write to tell us within two days of delivery (or the expected delivery time) You must give us (and any carrier) a fair chance to inspect the damaged goods.

2. Payment Terms

- 2.1 You are to pay us in cash or otherwise in cleared funds prior to delivery, unless you have an approved credit account.
- 2.2 If you have an approved credit account, payment is due no later than 30 days from end of the month of invoice unless otherwise agreed in writing.
- 2.3 If you fail to pay us in full on the due date:
 - 2.3.1 we may suspend or cancel future deliveries;
 - 2.3.2 we may cancel any discount offered to you;
 - 2.3.3 we may ask you to pay us interest at the rate set under s.6 of the late payment of commercial debts (interest) Act 1998
 - (a) calculated (on a daily basis) from the date of our invoice until payment
 - (b) compounded on the first day of each month; and
 - (c) before and after any judgement (unless a court orders otherwise);
 - 2.3.4. we may claim fixed sum compensation from you under s.5A of that Act to cover our credit control overhead costs; and
 - 2.3.5 we may recover the cost of taking legal action to make you pay
- 2.4 If you have an approved credit account, we may withdraw or alter your credit limit without notice.
- 2.5 You do not have the right to set off any money you may claim from us against anything you may owe us.
- 2.6 While you owe money to us, we have a lien on any of your property in our possession.
- 2.7 You are to indemnify us in full and hold us harmless from all expenses and liabilities we may incur (directly or indirectly including financing costs and including legal costs on a full indemnity basis) following any breach by you of any of your obligations under these terms.

3 Title

- 3.1 Until you pay all debts you may owe us:
 - 3.1.1 all goods supplied by us remain our property;
 - 3.1.2 you must store them so that they are clearly identifiable as our property;
 - 3.1.3 you must include them in your company insurance cover against theft or damage
 - 3.1.4 you may use those goods and sell them in the ordinary course of your business, but not if;
 - a. we revoke that right (by informing you in writing); or
 - b. you become insolvent
- 3.2 You must inform us (in writing) immediately if you become insolvent.
- 3.3 If your right to use and sell the goods ends you must allow us to remove the goods.
- 3.4 We have your permission to enter any premises where the goods may be stored.
 - 3.4.1 at any time to inspect them; and 3.4.2 after your right to use and sell them has ended, to remove them using reasonable force if necessary.
- 3.5 Despite our retention of title to the goods, we have the right to take legal proceedings to recover the price of the goods supplied should you not pay us by the due date.

4. Warranties

- 4.1 We warrant that the goods will:
 - 4.1.1 comply with their description on our order confirmation form; and
 - 4.1.2 be free from material defect for the period indicated in this brochure or 12 months from the date of delivery (as long as you comply with clauses 4.3 and 4.4) whichever is the longer.
- 4.2 We give no other warranty (and exclude any warranty, term or condition that would otherwise be implied) as to the quality of the goods or their fitness for any purpose.
- 4.3 You must ensure that;
 - 4.3.1. the goods are not modified or defectively installed;
 - 4.3.2 the goods are used and operated in accordance with any instructions that may have been notified to you;
 - 4.3.3 you have taken reasonable steps to draw to the attention of all persons using or proposing to use the goods, of all information instructions and warnings in respect of the goods supplied.
- 4.4 If you believe that we have delivered goods which are defective in materials or workmanship, you must;
 - 4.4.1 inform us (in writing) with full details, as soon as possible; and 4.4.2 allow us to investigate (we may need access to your premises and product supplied)
- 4.5 If the goods are found to be defective in material or workmanship (following our investigations, and you have complied with those conditions (in clauses 4.3 and 4.4) in full, we will (at our option) repair or replace the goods

- 4.6 We are not liable for any other loss or damage (including indirect or consequential loss, financial loss, loss of profits or loss of use) arising from the contract or the supply of goods or their use, even if we are negligent.
- 4.7 Our total liability to you (from one single cause) for damage to property caused by our negligence is limited to two million pounds.
- 4.8 For all other liabilities not referred to elsewhere in these terms our liability is limited to damages to the price of the goods,

5 Specification

- 5.1 We reserve the right to make any changes in the specification of our goods which are necessary to ensure they conform with any applicable safety or other statutory requirements.
- 5.2 We also reserve the right to make without notice any minor modifications in our specifications we think necessary or desirable.
- 5.3 Any weights, dimensions, capacities, ratings and general description contained in our catalogues, advertising material are illustrative only and will not form any part of the contract between us.
- 5.4 You must pass onto any person using or proposing to use the goods any information or instructions supplied by us regarding the use, safe handling or installation of the goods.
- 5.5 You must observe and adhere to any information, instructions or recommendations regarding the goods and must not use, modify or install the goods in a manner which has not been approved by us.

6 Return of goods

We will accept the return of goods from you only; 6.1 by prior arrangement (confirmed in writing) and; 6.2 where the goods are as fit for sale on their return as they were on delivery

7. Waiver and variations

- 7.1 Any waiver or variation of these terms is binding in honour only unless:
 - 7.1.1 made (or recorded) in writing;
 - 7.1.2 signed on behalf of each party; and
 - 7.1.3 expressly stating an intention to vary these terms.
- 7.2 All orders that you place with us will be on these terms (or any that we may issue to replace them) By placing an order with us, you are expressly waiving any printed terms you may have to the extent that they are inconsistent with our terms.

8. Force majeure

- 8.1 If we are unable to perform our obligations to you (or able to perform them only at unreasonable cost) because of circumstances beyond our control, we may cancel or suspend any of our obligations to you, without liability.
- 8.2 Examples of those circumstances include act of God, accident, explosion, war, terrorism, fire, flood, transport delays, strikes, and other industrial disputes and difficulty in obtaining supplies.

9. General

- 9.1 English law is applicable to any contract made under these terms. The English and Welsh courts have non-exclusive jurisdiction.
- 9.2 If you are more than one person, each of you has joint and several obligations under these terms.
- 9.3 If any of these terms are unenforceable as drafted: 9.3.1 it will not affect the enforceability of any other of these terms; and 9.3.2 if it would be enforceable if amended it will be treated as so amended.
- 9.4 We may treat you as insolvent if;
 - 9.4.1 you are unable to pay your debts as they fall due; or
 - 9.4.2 you (or any item of your property) become the subject of:
 - a. any formal insolvency procedure (examples of which include receivership, liquidation, administration, voluntary arrangements (including a moratorium) or bankruptcy);
 - b. any application or proposal for any formal insolvency procedure; or
 - c. any application, procedure or proposal overseas with similar effect or purpose.
- 9.5 All brochures, catalogues and other promotional materials are to be treated as illustrative only. Their contents form no part of any contract between us and you should not rely on them in entering into any contract with us.
- 9.6 Any notice by either of us which is to be served under these terms may be served by leaving it at or by delivering it to (by first class post or by fax) the other's registered office or principle place of business. All such notices must be signed.
- 9.7 No contract will create any right enforceable (by virtue of the Contract (Right of Third Parties) Act 1999) by any person not identified as the buyer or seller.
- 9.8 Nothing in these terms affects or limits our liability for fraudulent misrepresentation.
